The company holds a Certificate of Registration (COR) as Non-Banking Financial Institution, without accepting public deposits, registered with the Reserve Bank of India ('RBI') under section 451A of the Reserve Bank of India Act, 1934 and is primarily engaged in lending and investment activities.

1. Basis of preparation of Financial Statements

The accompanying financial statements are prepared on an accrual basis under the historical cost convention and in accordance with the applicable mandatory accounting standards and relevant guidance notes issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

The Company complies in all material respects, with the prudential norms relating to income recognition, asset classification and provisioning for bad and doubtful debts and other matters, specified in the directions issued by the Reserve Bank of India (RBI) in terms of Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 2007, as applicable to it.

2. Use of Estimates:

The preparation of financial statements are in conformity with generally accepted accounting principles that require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities as on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates and any revision to accounting estimates is recognized prospectively in the current and future periods. Difference between the actual results and estimates is recognized in the period in which the results are known /materialized.

3. Extraordinary and Exceptional Items:

Extraordinary items are income or expense that arise from transactions that are clearly distinct from ordinary activities. They are not expected to recur frequently or regularly. The nature and amount of extraordinary items are separately disclosed in Profit and Loss account so that its impact on current profit or loss can be perceived.

However when items of Income and Expenditure from ordinary activities are of such size and nature that their disclosure is relevant to explain the performance of the enterprises for the period, the nature and amount of such items is also separately disclosed in the Profit and Loss account. These items are generally referred as exceptional items.

4. Fixed Assets and Depreciation:

Fixed Assets are stated at historical cost less depreciation. Consideration is given at each Balance sheet date to determine whether there is any impairment of the carrying amount of Company's fixed Assets. If any indication exists, an asset recoverable amount is estimated and impairment loss is recognized, whenever the carrying amount of an asset exceeds its recoverable amount. Depreciation is provided on fixed assets on straight-line method at the rates prescribed in schedule XIV of Companies Act, 1956.

5. Investments:

Long Term Investments in shares and securities are stated at carrying costs. A provision for diminution in the value of Long Term investments is made only if such a decline is other than temporary, in the opinion of the management.

6. Inventory:

The company is not having any inventory as on the date of the Balance Sheet.

7. Borrowing Costs:

Borrowing costs attributable to the acquisition and construction of assets are capitalized as part of the cost of such asset up to the date when such asset is ready for its intended use. Other borrowing costs are treated as revenue/deferred revenue expenses as considered appropriately by the management.

8. Retirement Benefits Gratuity:

Provisions of the Payment of Gratuity Act, 1972 and the Employees State Insurance Act, 1948 and Employees Provident Fund and Miscellaneous Provisions Act, 1952 are not applicable to the Company therefore; no such expenses on account of employee benefits were booked.

9. Earning Per Share:

Basic Earnings Per Share is calculated by dividing the net profit/(loss) for the period attributable to equity share holders by the weighted average number of equity share outstanding during the period.

Diluted Earning per Share is calculated by dividing the net profit/(loss) attributable to equity shareholders by the weighted average number of equity shares outstanding during the period (adjusted for the effects of dilutive options).

10. Taxation:

Provision for taxation is based on assessable profits of the company as determined under the Income Tax Act, 1961.

Deferred Taxation is provided using the liability method in respect of the taxation effect arising from all material timing difference between the accounting and tax treatment for Income and Expenditure, which are expected with reasonable probability to crystallize in the foreseeable future.

Deferred Tax benefits are recognized in the financial statements only to the extent of any deferred tax liability or when such benefits are reasonable expected to be realizable in the near future.

Deferred Tax Assets and liabilities are measured at tax rates that have been enacted or substantively enacted by the balance sheet date.

11. Contingent Liabilities:
